Thank you for purchasing my template. If you have any questions that are beyond the scope of this help file, please feel free to email. Thanks so much!

If your query is urgent please email or send me a message on Skype

It's assumed you have all the technical skills to install WordPress and install Custom Themes for WordPress. You will find the necessary Theme files in the source directory. The zip file is called '**passion.zip**'. Please contact me via emails if you need any assistance.

Please refer to the following documentation once Theme is successfully installed.

Directory & Files Structure

assets: Contains all the assets used (JavaScript, and layout images)

includes: Contains all PHP code for Custom Post Types, MetaBoxes, Options and additional custom code for the theme

option-tree: Contains core OptionTree plugin

Other pages are for custom WordPress Page Templates and Theme Parts.

Theme Options

If you want to modify logo, phone, email and social links etc., please refer to Theme Options. You can access the section from WordPress dashboard. Find it Under **Appearance >> Theme Options**.

The screenshot shows the WordPress dashboard's 'Theme Options' page for the 'Passion' theme (Version 2.1.4). The left sidebar contains navigation menus for Media, Pages, Slideshow, Portfolio, News, Appearance, Plugins, Users, Tools, and Settings. The 'Appearance' menu is expanded, showing 'Theme Options' as the selected item. The main content area is titled 'Theme Options' and includes a 'Save Changes' button in the top right corner. The settings are organized into sections: 'General' (with a 'Social Links' sub-section), 'Logo', 'Phone', 'Email', and 'Footer Text'. Each section has a text input field and a 'Save Changes' button. The 'Logo' section shows a preview of the 'PASSION PHOTOGRAPHY WEBSITE' logo. The 'Phone' field contains '07466 912644'. The 'Email' field contains 'hello@chabbu.com'. The 'Footer Text' field contains '© ChaBBu.com. All rights reserved.' A 'Reset Options' button is located at the bottom left, and another 'Save Changes' button is at the bottom right.

Basic usage

You can modify and add contents as usual WordPress page contents. Simple create Pages, News, Slides, and Portfolio galleries. But make sure to select the right template for the pages. Each section is explained with little details below.

Featured Image

Works with **Pages** and **News**. Default page template is modified to fit with the template. Simply add your text and publish your page. You can add featured image from the featured image section on the right side of the panels. Please make sure your image size for featured image is '310x410px' or WordPress will resize automatically.

The screenshot shows the WordPress post editor interface. The main content area contains two paragraphs of placeholder text. On the right side, there is a 'Featured Image' section with a red circle highlighting a portrait of a woman with long red hair. Above this section are 'Publish' and 'Update' buttons. The status is 'Published' and visibility is 'Public'. The post title is 'Etiam posuere rutrum mi, ac volutpat - Aug 2014'.

Custom Page Templates

You can access custom page template, in the edit page section of the WordPress admin area.

The screenshot shows the WordPress admin area in 'Edit Page' mode. The page title is 'Home - Welcome to Passion Photography Website WordPress Theme'. In the 'Page Attributes' section on the right, the 'Template' dropdown menu is set to 'HOME: with Slideshow', which is circled in red. The status is 'Published' and visibility is 'Public'. The page count is 12.

custom-home.php: Custom home page with slideshow. You can refer to it in the admin panel via Template name '**HOME: with Slideshow**'

custom-news.php: Custom page template to display and list all news items. You can refer to it in the admin panel via Template name '**News**' .

custom-contact.php: Custom page template for contact page, this will include contact form if you have already set email in the Theme Options. You can refer to it in the admin panel via Template name '**Contact: with Form**' .

Home page with Slideshow

If you want to use home page as your slide show, please make sure to add some slides in the Slideshow section. All slides will be displayed by date (published), descending order. All images will be resized automatically. Just make sure your images have dimension somewhat 960x410px.

Once you have added all your slides, refer to the pages section and create an empty page but make sure to use, **HOME: with Slideshow** as your Page Template form the right hand side of the panel.

If you want to use home page as your default WordPress landing page. You will need to modify WordPress settings. Please refer to the **Settings >> Reading** from the left hand side.

The screenshot shows the WordPress 'Reading Settings' page. On the left is a sidebar menu with 'Settings' selected and 'Reading' highlighted. The main content area is titled 'Reading Settings' and includes the following options:

- Front page displays:** Radio buttons for 'Your latest posts' and 'A static page (select below)'. The 'A static page' option is selected, with a dropdown menu showing 'Home - Welcome to Passion Photography Website WordPress Theme'.
- Posts page:** A dropdown menu currently set to '— Select —'.
- Blog pages show at most:** A numeric input field set to '10' with 'posts' as the unit.
- Syndication feeds show the most recent:** A numeric input field set to '10' with 'items' as the unit.
- For each article in a feed, show:** Radio buttons for 'Full text' (selected) and 'Summary'.
- Search Engine Visibility:** A checkbox for 'Discourage search engines from indexing this site' which is unchecked. Below it is the text: 'It is up to search engines to honor this request.'

A 'Save Changes' button is located at the bottom left of the settings area.

Portfolio

Please refer to the Portfolio section form the left to add new Photo Galleries. The process is straight forward. Name the gallery and simply drag and drop images you want to display in the gallery. All images will be resized automatically. Just make sure your images have a height greater than 410px.

The screenshot shows the WordPress 'Edit Gallery' interface. The gallery is titled 'Birds' and has a permalink: 'http://chabbu.com/preview/passion-photography-wordpress-theme/portfolio/birds/'. The gallery contains eight images arranged in a 2x4 grid:

- Top row: A colorful parrot, a yellow-headed parrot, a toucan, and a swan.
- Bottom row: A grey bird, a nest of yellow chicks, a blue bird, and a butterfly.

On the right side, there is a 'Publish' panel with the following information:

- Status: **Published** (with an 'Edit' link)
- Visibility: **Public** (with an 'Edit' link)
- Published on: Dec 2, 2013 @ 15:34 (with an 'Edit' link)
- Buttons: 'Move to Trash' and 'Update'.

A 'Preview Changes' button is also visible at the top of the publish panel.

News Listing Page

Once you have added all your news items to the News, refer to the pages section and create an empty page but make sure to use, **News** as your Page Template from the right hand side of the panel. The new page will now display all news. You can attach a featured image as well if you want.

Website Main Navigation Menu

Theme comes with a Default menu '**Main Menu**'. You can create your own menu and assign the newly created menu to the 'Main Menu'. You can do it by changing the location. The process is simply drag and drop. You can access the Menus from: **Appearance >> Menus**

Important: if you cannot see the Portfolio and News in the menu selection. Please make sure to check Portfolio and News in the Screen Options. You can find it on the top right corner of the screen.
