an enjoyable local place just off Batthyány tér in Buda (I took this early in the day. The restaurant is normally very busy.)

## Restaurant traditionnel Victor Montes (Plaza Nueva à Bilbao)

<http://www.flickr.com/photos/dalbera/3452776026/>

Restaurant traditionnel Victor Montes (Plaza Nueva à Bilbao)

Le restaurant Vistor Montes est célèbre pour sa cuisine traditionnelle (en particulier la morue Pil Pil) et pour ses pinchos (pintxos) qu'on déguste debout avec un verre de vin du pays.

La Plaza Nueva est la plus connue de Bilbao. C'est une place caractéristique, située dans la vieille ville, avec des portiques de style néo-classique, construite sous la direction de l'architecte Antonio de Echevarria, qui l'a terminée en 1849.

Hi, I wanted to ask you if I could use this picture as a default restaurant photo for an app I am developing. It would be one of thirty, and it would be used randomly in those restaurants that doesn't have a picture uploaded yet. I would give you credit, of course. If you have any regrets, please let me know. Thanks in advance.  
[it would be an iphone app of helpeat.com]

for this photo I used aperture of f/10 and ISO 400. This is unusual for me because there usually isn't enough light in restaurants to use such a small aperture.
